NOBLY (EMV CERTIFIED)	Nobly	Restaurant, Bar, Retail, Salon, Gym, Vape, Kiosk	Deliver a next generation payment ready solution packed with up-to-the-minute features, such as intelligent reporting, inventory management, accounting integration, and more!	Increase your portfolio selling solutions that are ideal for multi-location operations. Then, enjoy a 30% profit share on the life of a contract (paid quarterly).
ALDELO (EMV CERTIFIED)	Aldelo	Restaurant, Fine dining, table service, QSR, food trucks and more	Aldelo delivers easy-to-use, eco-friendly, and cost effective software solutions. All systems are cloud-based with CRM and reporting capabilities. Merchants have multiple financing options, as well.	Provide your merchants with access to cutting edge hardware through a lease program that is based on credit. Once equipped, the merchant has 24/7 access to Aldelo's free technical support.
POSsible	POSsible	Restaurant, Pizza, Bar & Lounge, Food Truck, Retail	Offer merchants the latest technology and the most innovative solutions for restaurants, bars, food trucks, pizza parlors, retailers, and more. Merchants receive training, ongoing technical support, free software upgrades, social media integration, and a built-in gift card and loyalty program.	POSsible provides you with marketing materials. You can reach out to merchants, customizing the POS system for them as well as the financing! Merchants can purchase or lease from POSsible, creating different income opportunities for you!
AST POS (EMV CERTIFIED)	Amber Systems Technologies	Restaurant , Retail, QSR, Food Truck, Hospitality	ASTPOS offers both iOS- and Android-based systems, allowing merchants to choose the system they're most comfortable with. Applications can also be customized to fit business needs.	There are multiple systems available, enabling you to cater to a wide-range of business models. You can go beyond the retail solutions and offer modules such as kiosks and web ordering.
HioPOS cloud	HioPOS	Hospitality, Pizza, Restaurant, Retail	Provide your merchants an up-to-the-minute versatile POS solution for hospitality, restaurant, and retail. HioPOS even offers a built-in pizza module, detailed reporting tools, offline capability, and more.	You can provide your restaurant and pizza merchants with highly customizable options for their business type.

RETAIL/QSR

PRODUCT IMAGE	ISV	SPECIALTY	CLAIM TO FAME	WHAT'S IN IT FOR YOU
SIRCLE POS (EMV CERTIFIED)	Sircle POS	Small Retail, QSR	Sircle POS system runs on the Android platform in conjunction with Cloud technology. Easy installation and versatility make it appealing to a large variety of merchants looking for long-term POS solutions.	Maximize your profitability by selling or placing the most inexpensive hardware bundles of any POS system. Then, increase your residuals with our add-on modules, while simultaneously customizing the system for your merchants' needs.
iConnectPOS (EMV CERTIFIED)	iConnect POS	Health & Beauty, Retail, Food & Beverage targets	Offer merchants an iPad-based POS system featuring customer loyalty programs, currency conversion, email/text message marketing, CRM, and much more. iConnect is perfect for small and medium-sized businesses, multi-location retailers, and franchises.	With just one system, you can cater to a plethora of merchants: clothing retailers, salons and spas, QSR merchants, bakeries, kiosks, and so many others. You can expand and diversify your portfolio with this one POS system.
shopfast	shopfast	Small Retail Business, QSR	ShopFast is a robust application configured for the iPad and web that allows merchants to sell a store's products from a physical, retail setting. ShopFast offers a whole host of features, including anonymous checkout, gift card capability, multilingual and multicurrency support, return management, live chat integration, and SMS notifications.	Merchants receive time zone support. You don't have to worry about merchants disbursed throughout the country, as they will be able to contact ShoFast support at times convenient for them.
POYNT	Poynt	All small business	Poynt combines the security and reliability of a traditional terminal with the unlimited versatility of a smartphone to deliver the open commerce platform of the future. Applications built on PoyntOS can run on Poynt Smart Terminals or in the Cloud, providing an integrated and one-stop experience for the merchants.	This isn't just another terminal to sell. This is a hybrid smart payment terminal combining the functions of a smart phone with those of a traditional terminal. This is an option specifically with small merchants in mind. Single them out and create another channel to grow your portfolio.
Quetzal	Quetzal	Specialty: Clothing & Shoe Retailers	Quetzal is the high-end system designed specifically for shoe and clothing retailers. It offers features like functionality for up to 10 locations and shopper analytics tools.	Reap the rewards of a POS system that has been customized for shoe and clothing retailers to offer them a streamlined workflow that maximizes their sales and builds your portfolio.
Growthzilla (EMV CERTIFIED)	Growthzilla	Health & Beauty	Growthzilla is the easy-to-use, tablet-based POS solution for the health and beauty service industry featuring appointment scheduling software, customer loyalty rewards, text message marketing, waitlist management, stylist performance reporting, sales analytics, and more.	Get in the door with a wide array of merchants by selling the POS solution built specifically for beauty salons, spas, nail salons, and barbershops.
myOmny (EMV CERTIFIED)	MyOmny	Small and Mid-size business	Offer small and mid-sized businesses a mobile POS solution that connects the dots between their sales operations and their back office. MyOmny allows merchants to operate more efficiently and boost customer satisfaction by synchronizing business-critical information with QuickBooks in real time via the free MyOmny app.	Increase your value to merchants and end the cycle of attrition associated with merchants switching providers every time a new processing offer comes along. With MyOmny, once a merchant has integrated their mPOS system with QuickBooks, they have a real reason to stick with you. That means an increase in the average merchant life cycle and more revenue for you.

RESTAURANT

PRODUCT IMAGE	ISV	SPECIALTY	CLAIM TO FAME	WHAT'S IN IT FOR YOU
PATHWAY POS (EMV CERTIFIED)	Pathway POS	Restaurant, Fast Food, QSR	Along with real-time reporting, Pathway offers business owners centralized menu management, customized pizza screens, and Cloud-based processing that can complete sales while offline.	You can leverage an array of unrivaled support tools designed to keep your merchants up and running.
SUPERMENU (EMV CERTIFIED)	Supermenu	Restaurant	Supermenu is a comprehensive POS and CRM system that gives restaurants a whole host of capabilities including online and email reporting, online reservations, a built-in gift card and loyalty program, a customized coupon and gift certificate creator, online and mobile ordering, self ordering kiosks, and online customer relation management.	Close more deals offering software that rivals the most expensive POS systems on the market at a fraction of the cost. Merchants get up and running quickly with easy-to-use software and stay up-to-date with free daily or weekly feature upgrades at no additional cost.
HotSauce (EMV CERTIFIED)	HotSauce	Restaurant Bars & Nightclubs	HotSauce is the simple, powerful, and user friendly POS system available to merchants at an affordable monthly price. It's the only subscription program on the market where the merchant is given continuous support and upgrades, as well as a dedicated project manager throughout the entire implementation process, free of charge.	You just sell the system. HotSauce will take care of the rest, from configuration and setup to ongoing support and upgrades. Enjoy the increase in residual income that comes with additional monthly subscriptions, regardless of whether the merchant signs up for the subscriptions through you or HotSauce.
GRUBBRR	Grubbrr	Restaurant	Grubbrr provides an easy-to-use interface that allows guests to ask questions and get answers in real time using Message Manager; merchants can respond directly from the POS system. Merchants can also easily create menus, reports, and shift rosters, manage employees, track table inventories, change rates, send notifications to customers, get waiter alerts, and more. The tablet solution is ideal for small- to mid-sized independent restaurants, while the tabletop solution is ideal for small- mid-sized, and large restaurants and regional chains.	Grubbrr provides you with detailed analytics data to increase your profits and create better customer experience. Working with Grubbrr allows for you to better understand your merchant needs, while growing your portfolio.
posnimbus	POSnimbus	Restaurant	Offers restauranteurs full, real-time access to sales reports and system settings from any internet connected device via a complete cloud-based solution.	You can price how you choose. There are no cancellation or hidden fees, making the sales pitch easier!
Touchpoint.io	Touchpoint.io	Restaurant	Touchpoint offers restaurant owners with an "the innovation platform" for commerce, featuring multi-store capability, wireless functionality, customer detection and recognition, customized menu reporting and management, integrated kitchen display systems, consulting services, and a full suite of supported devices.	With so many options available with Touchpoint, you can truly cater to your merchants and create solutions they can grow from. As their businesses grow, Touchpoint's array of options will help income grow, as well!

OTHER

PRODUCT IMAGE	ISV	SPECIALTY	CLAIM TO FAME	WHAT'S IN IT FOR YOU
Splitit (Formerly PayItSimple)	Splitit	Alternative Payments, Retail (Jewelry, Furniture, Electronics), Auto, Healthcare, Marine, Medical Devices, Travel & Leisure	Help merchants increase both their sales and their average ticket amounts by offering an interest-free monthly payment option to their customers at the point of sale.	For those large-ticket merchants, you can offer a payment option that will increase their sales and ticket amounts. With their own financing options available, they can cater to their clients even better!
FreeGivingKiosk.com Donations Made Easy	FreeGivingKiosk.com	Churches , Non-Profits	Merchants receive free kiosks. Systems provide them with real-time reporting. Pricing for FreeGivingKiosk.com is roughly half that of what competitors charge. In addition to kiosks, merchants can access multiple other processing platforms (i.e. online donation sites, mobile donation apps).	You can double down by signing up merchants for both retail and MOTO solutions. Then, enjoy splits and residuals that are significantly higher than those for regular merchant accounts.
